

Delivery & Collection Plus

value added service

What is Delivery & Collection Plus?

Delivery & Collection Plus is a service that delivers products to or collects them from the end-customer while providing on-site value added services like unpacking and packing, personal collection and/or delivery, identification, connect, disconnect, install and swap.

It can also include appropriate administrative services that may be required to support return material authorisation orders, such as serial number check and return instructions.

How can you benefit from TNT Delivery & Collection Plus?

Delivery & Collection Plus offers your company a way to provide on-site services for your customers during collection or delivery, improving customer satisfaction. Outsourcing these on-site activities to TNT will also reduce your costs.
